INTRODUCTION

Our merchant control panel is designed to ease online merchant from checking all transactions from different channels until sending a simple cancellation request so that the system could reverse the transaction or refund the amount back to the buyer account.

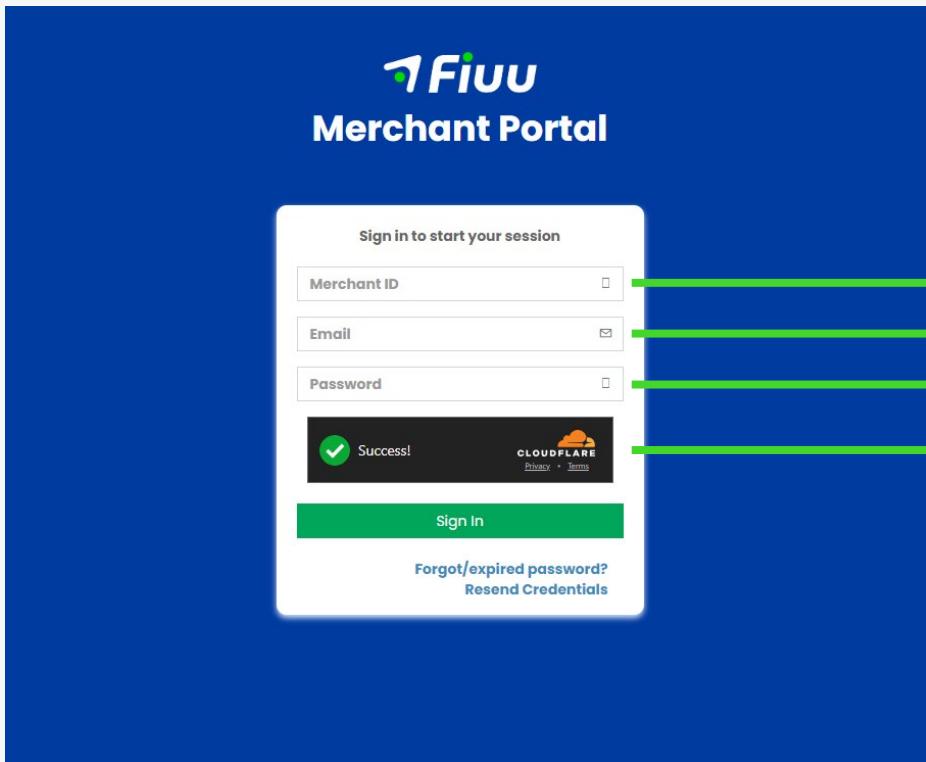

The control panel has 4 major sections:

- **Transaction:** most frequent accessible part that allows merchant to see all their transaction listing
- **Merchant Profile:** a configuration interface for merchant that merchant can change the password, contact information and application setting
- **Settlement:** historical record of fund transferred from us to merchant
- **Access Settings (Sub-user Account):** management allow merchant to add user account and control what they can access based on their role
